## ABOUT US

TIES is a supply chain management company constantly driven by the trail of progress.

We analyse and optimise your company's value chain to improve performance, processes, and efficiency. Our team comprises people with extensive experience in strategic alliances, brand creation, commissioning, managing, and operating successful supply chain infrastructure and setups for a variety of international companies across industry verticals.

### Supplier Diversity

As part of our diversity strategy, we strive to work with diverse vendors to fulfill the needs of the supply chains countrywide. We believe that a more diverse and inclusive workspace supplements our business and also acts as a part of our broader commitment to bring communities together with whom we work and do business with. We're proud of our diverse supplier partners.

### Women-Owned

We are also proud of the fact that we're a certified women-owned business both locally and nationally. Our Supplier Diversity Initiative has enabled us to work with women-owned businesses with now a third of our diverse suppliers owned and operated by women.

## SUPPLY CHAIN SOLUTIONS

We can help you analyze and streamline your supply chain so that you can respond quickly to market changes while boosting operational efficiency.

### Outsourcing 3PL/4PL

The 3PL and 4PL outsourcing services at TIES have a single goal in mind - to secure a healthy return on your investment while maintaining high levels of customer care.

### Last Mile Delivery

Plan your everyday deliveries with TIES to plan your last-mile delivery routes, optimize fleet management and ensure complete capacity utilization of your delivery fleet.

## » Q-Commerce

To meet the high standards of less-than-15-minutes deliveries, businesses need smart supply chain planning, fulfilment, and transportation systems working in tandem. This is where TIES can help.

## » ESG Solutions

Our diverse teams can help you navigate today's difficult environment and achieve your company's goals by assisting you with your particular priorities, operating model, and commercial ambition.

## SUPPLY CHAIN SERVICES

With extensive operational experience and a dedicated services team, TIES can source, manage and optimize resources to fit your business objectives.

### Recruitment and Manpower Management

Get access to talent and cost control on critical projects with TIES.

### Equipment Handling and Asset Management

Our Equipment Handling and Asset Management solutions ensure that your assets are delivered on time and in good shape.

### Aggregation Services

TIES can network and integrate with multiple agents to provide a uniform and streamlined platform for your business.
